(By Amociated Press.) SHANGHAI, Sept. 26.—A Chinese warship on Friday last intercepted the English ship Pathan in the Formosa Channel, upon suspicion that she was carrying munitions of war. The Pathan was taken to Kee-Lung, a treaty port of the Island of Formosa, where her cargo was overhauled by the Chinese authorities. The result of the in-

The Pathan, referred to as being overhauled by a Chinese warship and taken to Kee-Lung, is probably the British steamship, Pathan, Capt. Rice, which cleared from New York on July 28, for Aden, Hong Kong and Shanghal. Her agents here were Barber & Co.

The Pathan touched at Aden on Aug. 5, arrived at Hong Kong on Sopt. 15, and if she is the vessel seized, was apparently on her way to Shanghai when overhauled.

The only munitions of war on the list, they added, were one case of revolvers they added, were one case of re-for Kobe, Japan, and one case of re-volvers and one case of cartridges for Yokohama.

Mr. Barber said that this was an unusually light shipment, as vessels in the China and Japan trade generally carried ten or fifteen cases of guns, revolvers, &c., on each trip.

ing investigated by the Grand Jury.

Considerable comment is being made on the fact that several efforts were made to get Bryant released on bond, and that Chief Desmond was told by Bryant's wife that he would lose nothing if he would agree to it. Another thing commented on is that Deputy Sheriff Annis, who was in charge of the cage when the escape was planned and executed, is a brother-in-law of Hugh Brady, who was the most active man in trying to get Bryant released.

Annis denies that the escape was due to carelessness on his part. Hugh Brady says that he tried to have Bryant released at the request of a Chicago friend, and isplays a letter and a telegram in support of his statement. Bryant has a big political pull in Chicago, and it is said that these friends were the ones to advance money to indemnify a bondsman in case Bryant could be released.
